

Design options

We want the community's help to influence the design of the building. We have considered several different approaches and material for the roof form and would like you to help us choose which option to take forward to ensure our proposal is an high-quality design. Below are the four options for the roof design that we are considering, please provide us with feedback on your preferred option.

Option 1

A recessed roof with clay roof tiles

Option 2

A recessed roof with grey cladding

Option 3

A full height mansard style roof with grey cladding

Option 4

A full height mansard style roof with clay roof tiles
